THE ANNUAL QUALITY ASSURANCE REPORT (AQAR) OF THE IQAC

Name of the Institution: Farook College, Kozhikode, Kerala.
Year of Report: 2010 – 2011

Part A

The Plan of Action Chalked out by the IQAC in the beginning of the year towards quality enhancement and the outcome achieved by the end of the year

The focus was on the following areas of developmental activities during the Academic year.

- (i) The completion of the work of the separate block for the PG Courses with furnished classrooms to meet the requirements of modern methods of teaching is in progress.
- (ii) To construct a Car Parking Bay for the staff with the support from Alumni
- (iii) To Build a Gallery cum Pavilion for the College Ground.
- (iv) UGC-NET coaching in all subjects is being conducted by the various Departments to be continued.
- (v) The existing vacancies in many departments were filled by appointing qualified persons
- (vi) To streamline the research activities of the college by establishing a Research Promotion Council
- (vii) TO install facilities for ensuring uninterrupted power supply to the Labs, Library, Office and the Departments

Part B

6. Activities Reflecting the Goals and Objectives of the Institution:

Vision

To mould competent and well-developed persons who can take up the challenges of the future on behalf of the community, the society, the nation and the world.

Mission

To provide all-round development and training to generations of men and women who are competent to carry out various functions of nation-building, to equip them with value-based education and training, to empower them with positive qualities and qualifications, to promote research activities and social outreach activities, to provide leadership to persons and institutions for community-empowerment and to ensure excellence in education and related activities for better nation and world.

The College strives to help every student:

- To understand himself/herself and discover his/her latent capacities
- To understand his/her position as a member of human society and the physical universe
- To think clearly and critically and communicate effectively
- To learn how to make practical application of knowledge, attitudes and skills
- To develop a sense of unity of all knowledge including religious vision.
- To make every effort for the all-round development of every student that enters its portals.

- i. With these objectives in view, various schemes have been put into operation and activities of intellectual, physical and cultural values are organized.
- ii. Ample opportunities are provided for research activities and social outreach programmes.
- iii. To facilitate fuller realization of the objectives, it has been conceived as a residential institution. This helps in maintaining an atmosphere of academic culture around the College.
- iv. The College also tries to give adequate attention to the development of the overall potential of the student community by providing value based education and facilities for co-curricular and extra-curricular activities.
- v. The College maintains an atmosphere conducive to the free development of social and religious aspirations and inner life.

2. New Academic Programmes Initiated (UG and PG):

NIL

3. Innovations in Curricular Design and Transaction:

The University of Calicut to which the College is affiliated has introduced major innovations in curricular design by introducing semester with choice based credit system at the UG level. This has brought about major changes and novelty in the teaching-learning process and system of examination and evaluation. The system was introduced during 2009-10. Members of various faculties have contributed to the same as many of them are members of Board of Studies of the University of Calicut to which the college is affiliated. They initiated in the current year processes of rectifications of the new syllabi introduced last year.

4. Inter-disciplinary Programmes Started

Choice based credit and semester system has restructured the existing programmes in such a way that inter-disciplinarity is a basic feature of the programmes. There are Common courses, complementary courses and open courses apart from core Courses in the system

Several Departments are giving adequate training in computer application and communication skills by providing modules in collaboration with the College Informatics Centre and Language Lab.

5. Examination Reforms Implemented:

The curriculum has less flexibility in examination reforms due to the present affiliation system. However, with the introduction of Choice based Credit Semester System, all the Departments of the College have adopted continuous assessment of the students for internal assessment by means of (i) Assignments (ii) Seminars and (iii) Test papers. With the introduction of CCSS, the pattern of examinations has also been modified by the University.

29. Financial Aid to Students

A) EDUSUPPORT

Edu-Support is a scheme instituted by the College to provide assistance to financially backward students for completing their studies. The fund required for the purpose is raised through contributions from Old Students (mainly NRI's) parents, teachers and other well-wishers. The eligible students are identified by conducting interviews and their actual requirement assessed. Instead of paying cash directly, arrangement is made to provide the requirements. Assistance is usually given in the form of payment of hostel dues, providing lunch by distributing coupons, books, bus fare, tuition fee, medicine, clothing, record work, study tour etc.

During 2010-11 an amount of Rs. 5, 24,734/- was expended for the benefit of 188 students of various Degree and Post-Graduate courses

Many students entering the portals of Farook College come from a poor economic background. Some of them have an excellent academic record with high marks in examinations. But they experience several difficulties in completing their education owing to their financial woes.

In order to help this category of students, Farook College has implemented an 'Edu Support' Programme. It is a noble venture started in 2004 in Farook College. It aims to help students and cover their expenses related to Books, loading, travel, food medical treatment, and so on. It offers succor to students facing various difficulties.

In this era of globalization, when education is increasingly going beyond the reach of the common man, Farook College has a vision. It is on a mission to help the poor, underprivileged sections of students. This is a reflection of our social commitment and our firm belief that education is a light that should spread throughout society.

Edu support seeks to give a helping hand to those undergoing financial hardship. It also seeks to enhance the empathy of other students to the problems faced by their underprivileged classmates. It is necessary to create a mindset to help others in need, amongst the entire student community. This will give a good foundation for the future of our society.

Edu Support is backed by many charitable and philanthropic minded individuals and organizations associated with the college. Funds are raised from several quarters such as Parent Teacher Association (PTA), Qatar Old Students Association, Farook College Teaching Staff and other well wishers of the institution.

Every academic year the 'Edu Support' Programme seeks to create awareness about the existence of such a scheme among all the students. Then applications are invited. Later the family background, annual income, marks secured, and other details of all the applicants are closely scrutinized. After verification, all those students found deserving are given financial help in tune with their requirements.

Since 2004 Edu support is functioning smoothly under the leadership of the Principal. And a Committee appointed every year supervises the functioning of this noble scheme.

EXTENSION SERVICES

1. P.M. Institute Civil Service Examination

Twenty five students were admitted to the regular batch of civil services examination training Programme for the year 2010-11. The regular batch commenced on 2nd August 2010 along with thirty senior students of the previous batches. The institute conducted the programme for this year with a well prepared schedule of sessions for general studies, aptitude and optional subjects with a view of ensuring changes in the syllabus of the civil services preliminary examination brought up by the UPSC. The institute offered optional subjects public administration, geography, economics and Malayalam literature. The sessions were engaged by a panel or resource persons drawn from the subject experts with rich experience in civil service examination coaching. The training programme was scheduled for six months from August 2010 to January 2011 with an emphasis on aptitude, reasoning, English comprehension and numerical analyses to prepare the students for the ensuing Civil Services Aptitude Test (CSAT) conducted by the UPSC in June 2011.

The Governing body of the P.M. Institute in its meeting held on 1st September 2010 congratulated Mr. Ashiq Karattil who stood third position in the Indian Economic Service (IES) examination conducted by 2009. Principal, faculty and students of the P.M. Institute congratulated Mr. Ashiq on 6th September 2010 for bringing laurels to the Farook College. Thirteen candidates enrolled at the P.M. Institute qualified the preliminary examination May 2010 who include 11 students and two faculty members.

The institute will be conducting a series of 28 model tests on the CSAT pattern for the Preliminary examination from 26th February 2011 for regular batch students and the civil service aspirants appearing the preliminary examination of UPSC on 12th June 2011. The institute is also proposing a crash programme on CSAT pattern for one and half month from 15th March to 30th April 2011 to make the civil service aspirants familiar with the new pattern of the preliminary examination.

Foundation Course

Eighty undergraduate students of Farook College and other colleges in the adjoining districts were admitted to the foundation course and the programme commenced on 7th August 2010. Since the course is scheduled to be spreading over the first two years of the bachelor
